

**REMARKS**

The objections regarding the drawings were removed as the objected claims 11 and 21 mentioned by the examiner were canceled. The applicants also deleted the reference to the external transportation means that in any case were used as an illustration of one of the devices to which the mounting plate can be attached.

Claims 1-21, 35-41, and 49 are pending in this application. All the claims were rejected by the examiner.

Claims 2-12, 15-20, 35-41, and 49 were rejected on the basis of 35 USC 112 in view of indefinite expression and lack of antecedents. These objections were removed by defining "one side" and "both side" as sides relative to the longitudinal axis of the mechanism. All limitations of the amended claims have appropriate antecedents.

The applicants accept rejections on the basis of 35 USC 102 and 34 USC 103, and the rejected claims were canceled.

Allowable claims 35-41 and 49 were rewritten to overcome the rejections under 35 USC 112 and to include all of the limitations of the base claim and of the intervening claims.

**CONCLUSION**

For all the above reasons, the applicant submits that the specification and claims are now in proper form, and that the claims all define patentably over the prior art. Therefore, the applicant submits that this application is now in condition for allowance, which action he respectfully solicits.

**Conditional Request For Constructive Assistance**

Applicant has made a diligent effort to amend the claims of this application so that they define novel structure, which is also unobvious. If, for any reason, the Examiner believes that the claims of this application are not yet in full condition for allowance, applicant respectfully requests his constructive assistance and suggestions pursuant to the spirit of MPEP § 2173.02 and § 707.07(j). This will enable the undersigned to place this application in fully allowable condition as soon as possible and without the need for further proceedings. The Examiner is authorized to make any needed minor corrections or changes.

Very respectfully,

Applicants:

Boris Kesil

1040 Di Giulio Avenue #200

Santa Clara, CA 95050

Tel. 408-747-8787

# CERTIFICATE OF MAILING

I hereby certify that this correspondence (Response to the Office Action of 05/31/2005 relating to US Patent Application 09/944,605 of Boris Kesil, et al.-19 pages; Return post card; and certificate of Mailing) will be deposited with the United States Postal Service by First Class Mail, postage prepaid, in an envelope addressed to "Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450" on the date below:

Date: July 23/05
